AUSTRALIAN SECURITIES EXCHANGE ANNOUNCEMENT

13 August 2010

SALE OF EL4526 AND WYNBRING PROJECT

Tasman Resources Ltd ("Tasman") has sold to Marmota Energy Ltd ("Marmota") its residual interest in Exploration Licence 4526 (formerly 3306) on the Gawler Craton in South Australia and over which Fission Energy Ltd ("Fission") holds the uranium rights, including the Wynbring uranium project. Tasman has received 500,000 Marmota shares as consideration, escrowed for 12 months.

Fission has also sold its uranium rights to EL 4526 and in the Wynbring Project to Marmota for a cash consideration of \$350,000.

The consideration to each party is based on the relative exploration expenditures of Tasman and Fission on EL 4526.

Divestment of Wynbring will allow Fission to focus on nickel sulphide exploration and development of the Mt Thirsty Co-Ni oxide project near Norseman in Western Australia.

Tasman is a substantial shareholder in Fission, holding 25 million shares and 25 million options.

A handwritten signature in black ink, appearing to read "Greg Solomon".
